## Public Workshop Notice

### **Sacramento and Feather Rivers Diazinon and Chlorpyrifos TMDL and Basin Plan Amendment**

**CEQA Scoping Meeting and Public Workshop  
February 15, 2007, Yuba City Council Chambers**

The Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board) staff will hold a CEQA<sup>1</sup> scoping meeting and public workshop on the proposed amendments to the Water Quality Control Plan for the Sacramento and San Joaquin River Basins (Basin Plan) to control the discharge of diazinon and chlorpyrifos into the Sacramento and Feather Rivers. A CEQA scoping meeting was originally held for this project on May 23, 2006. An additional CEQA scoping meeting and public workshop is being held to discuss proposed changes in project scope to include water quality objectives, load allocations, and an implementation program for discharges of chlorpyrifos in addition to diazinon. Additional information including a fact sheet is available at:

[http://www.waterboards.ca.gov/centralvalley/programs/tmdl/sac\\_feather\\_diaz/index.html](http://www.waterboards.ca.gov/centralvalley/programs/tmdl/sac_feather_diaz/index.html)

This workshop will provide participants with: (1) an opportunity to comment on the appropriate scope and content of the proposed amendment and environmental documents; and (2) an overview and status of the work underway. Following the workshop, staff will review written comments received and prepare responses and a draft staff report for public comment. Responses to written comments will be included in the final administrative record. Central Valley Water Board consideration of the proposed amendment is expected in Spring 2007.
